On the 5th May 2018, Mastermind Talks of 2018 BIG BERRY Kolpa River Resort began with the smiling and energetic Martina Simonič who comes from Slovenia and is an artist, a business owner and an executive coach.

Because of her international experience in coaching, her

motto is: "To inspire the best in you because I believe that the best thing that we can give to the world is to live in it with our full potential."

Before she became an artist and a coach, Martina had studied to be a teacher for children in nursery and primary school. She

worked for 6 years as a teacher in Primorska. After that, she went to England to be the co-owner of Suportal Ltd, a coaching company. Apart from that, she started a new project gathering art & design as well as coaching. Four years later, she went back to Slovenia to officially start her own business, 8Shadows, which focuses on coaching, developing workshops, designing new art

concepts and organizing many creative events for both adults and children.

“Many people think that we need to be artists to be creative, but we use creativity in many different areas of our lives.”. Martina coaches people who are in search of themselves and those who don't believe that they are creative. By organizing creative events, she aims to get people's confidence back and to help them find their passion.

She gained her experience on various seminars and workshops abroad, such as Landmark Forum in London, which is known for its unique and intense programme. She also assisted teams for a few years.

During the first mastermind event, Martina talked about Leadership - How you do anything is how you do everything. In several points, she showed that everybody can find their own leadership in their everyday life. Making the talk more interactive, she first asked "what leadership means to us?" and invited the audience to share their experiences on the subject. Then, she described main characteristics of a successful leader and emphasized our purpose: "What do you stand for?" Her conclusion involved the limitation of our
