BIG BERRY Slovenia

”

BIG BERRY Chef is a very innovative project and I'm excited to be part of it

BIG BERRY Chef (BB Chef) is the yummiest and newest project launched by BIG BERRY for this season. Aiming to gather good cooks in the BIG BERRY kitchens in different destinations, this project had as its first guest Jure Pečarič, the owner and chef of Gostilna Pečarič, an outstanding restaurant located in Ljubljana.

Launched last Friday, 28th April, BB Chef successfully gathered plenty of activities which linked our partners, gastronomy and Pečarič who gave to all the pleasure of tasting his recipes at BIG BERRY Kolpa River.

”

A good cook needs to have passion, love for cooking and to be a little bit crazy..

The program started with a welcome-meal for Pečarič with the BB team at Gostišče-Veselič. Later on he went to visit Kmetija-Pavlovič from where he collected some berries for his recipes.

This was followed by some other activities such as a first full meal cooked and planned exclusively by him, interviews given to BB team and a game called “Trying the Cook”, in which Pečarič needed to guess the food he was trying blindfolded.

As for his first plate, Pečarič planned to cook a delicate dish called pork fillet with asparagus puree that consists of asparagus puree and crispy bacon and roasted beef with strawberry sauce over it, a dish which was also served during BIG BERRY opening party, also on the 28th April.

## BIG BERRY Project

One of the challenges released by BIG BERRY to the chefs that will participate on this project is that, although they can cook anything they want, in all versions of the project during this season, it is mandatory to add a BIG BERRY touch in their dishes by using some berries in it, besides any of our partner’s products.

For this first version of the BB Chef Pečarič worked with three of our partners, as mentioned before. For the

“Trying the Cook” game, BIG BERRY selected goods such as chestnuts beer produced by Pivovarna Vizir; strawberry yogurt, by Kmetija Štrucelj and LeGhee from Zlati Ghee.

After the game, the BB team had the chance to collect some of Pečarič’s impressions about some of the BB’s partners products. In general, Pečarič mentioned the Kmetija Štrucelj yogurt as something that reminded him of his childhood, the Pivovarna Vizir as a perfect beer for those who really enjoy drinking a good beer and the chocolate version of the Zlati Ghee as having a great and full chocolate taste.
