The BIG BERRY Team and Kate took off to an exciting adventure in the Slovenian Alps. On a two-day-trip we challenged ourselves to climb Triglav, Slovenian's highest peak at 2.864 m altitude. We were inspired by the natural scent and ingredients of our AlpStories Shower Gel and Body Lotion that were exclusively designed for BIG BERRY. While making our way up to Dom Planika, our shelter for the night, we were amazed by the beauty of the Alps. A few of us made it to the top a day later and were as happy as ever. Now, every shower we take with our AlpStories Gel will take us back on top of Slovenia again.

We are eager for the next adventure in the Alps, but only if we have AlpStories products with us, for the complete experience!
